**THIRTY THIRD SUNDAY IN ORDINARY TIME - 16<sup>th</sup> NOVEMBER 2025**

**TODAY'S READINGS:** Stand erect hold your heads high...

Today's Gospel opens with the disciples gazing in awe at the splendour of the Temple. It must indeed have been magnificent. Herod's reconstruction had taken fifty years, restoring what had once been the glorious Temple of Solomon. That original building had been destroyed by the Babylonians in 588 BC, and when the Israelites returned around 528, they first had to rebuild their own homes. Only after many years did they begin raising a new Temple. Then, in 26 BC, Herod sought to restore it to its former majesty. By the time Jesus and His disciples stood before it, the work had only just been completed. The disciples were understandably amazed at the precious stones and the votive offerings shining in the light. But Jesus meets their wonder with a sobering truth: all of it, every stone, will fall. The voice of the Lord breaks through their admiration: But before all this happens... that will be your opportunity to bear witness. The real temple God builds is not of stone. Jesus calls His followers to stand firm for Him, for His kingdom, and for the Gospel in a world that pulls toward self-interest. Your endurance will win you your lives. We are, each one of us, temples of the Holy Spirit. Let us pray for the grace to endure whatever comes, witnessing to Christ in word and deed.

....your liberation is near at hand!

*Thank you all for my birthday celebration, for the cards, the very generous financial gift and all your other wonderful gifts. Thank you to all those who helped with the organising and for serving on the night. For someone who is not a great party-goer it was a thoroughly enjoyable evening. Most of all, it was lovely to spend an evening with so many of yourselves and reminded me again what a great parish you are. God bless. Fr Hugh*

**COP30:** At the forthcoming COP30 climate talks in Brazil, every country around the world will negotiate with each other about the measures they will (or will not) collectively take to reduce carbon emissions. The outcomes in important areas – like fossil fuels, renewables, agriculture, and deforestation – will shape the future of our planet, and the lives of billions of people – particularly the poorest. Some island nations, barely higher than sea level, will literally be fighting for survival. As Catholics we must "hear the cry of the earth and the cry of the poor" (Pope Francis). That includes being well-informed. Please follow events at COP using trusted sources such as the BBC, and websites such as those of CAFOD and the Vatican and, above all, pray for the success of the talks. Since carbon emissions don't obey borders, this is a global problem that needs global solutions.
